Standard Installation

When our installers visit your home or business, they may be required to undertake extra works to ensure you receive the best possible service. Extra works are not included in the installation price. Our installer will advise you of the extra work and cost to you before they undertake the install. A standard install includes:

1 x Radio Antenna mounted on a mast of up to two meters; cabling from mounted antenna position to wall point up to 15 metres; 1 RJ45 Wall Port; 1 x Antenna power injector and power supply; cabling between wall port and power injector, power injector and router, router and computer; 1 x standard 4-Port Broadband router

*All equipment (except for Wireless Router) remains property of DCSI
